

CELLU PRO

Cellulite Reducing Solution

ADIPOSITY + CELLULITE

10 x 5 ml

What is it? CELLU PRO

CELLU PRO combines plant based ingredients used in traditional remedies, yet clinically proven by modern science, to boost a range of processes that successfully address the cellulite condition.

CELLU PRO is a professional use, sterile, cosmeceutical solution.

Benefits

- Boost circulation
- Enhance fibroblast proliferation
- Increase the synthesis of collagen
- Hydrates the tissue
- Improves skin elasticity

Active Ingredients

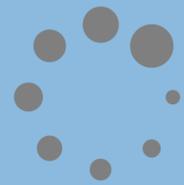

Centella Asiatica, Hedera Helix Leaf Extract, Fucus Vesiculosus Extract and Camellia Sinensis Leaf Extract.

Centella Asiatica mechanism of action involves promoting fibroblast proliferation and increasing the synthesis of collagen and intracellular fibronectin content, and also improvement of the tensile strength of skin.

Hedera Helix Leaf Extract helps to reabsorb the oedema present in the initial stages of cellulite. A major action of this herb is that of a circulatory compound which assists other components to be absorbed by the skin, whilst also helping to remove waste products and fatty build-ups from the tissue, and helps release fatty deposits from the cells.

Fucus Vesiculosus Extract offers a protective moisturizing complex and includes non-essential and essential amino acids such as proline, glycine and lycine, all of which help maintain and improve the skin elasticity.

Camellia Sinensis Leaf Extract promotes a vasodilator response and prevents the lipid accumulation into the adipocytes.

Transdermal Therapy

Designed to penetrate the skin with different methods of application.

- Topical application with simple rubbing.
- Topical application during massage.
- Virtual mesotherapy, E.g. iontophoresis, electroporation, ultrasound, etc.
- Collagen Induction Therapy (CIT) E.g. Skin needling, Dermapen, etc.

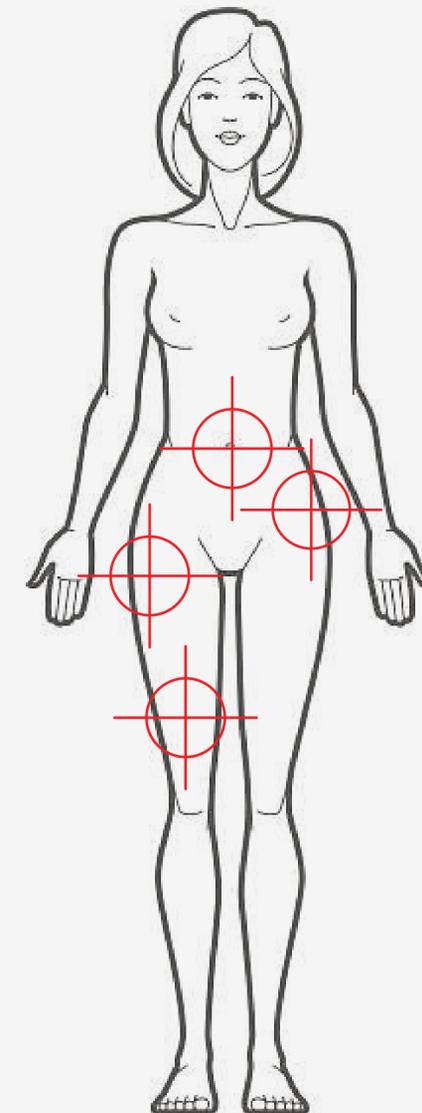

Protocol

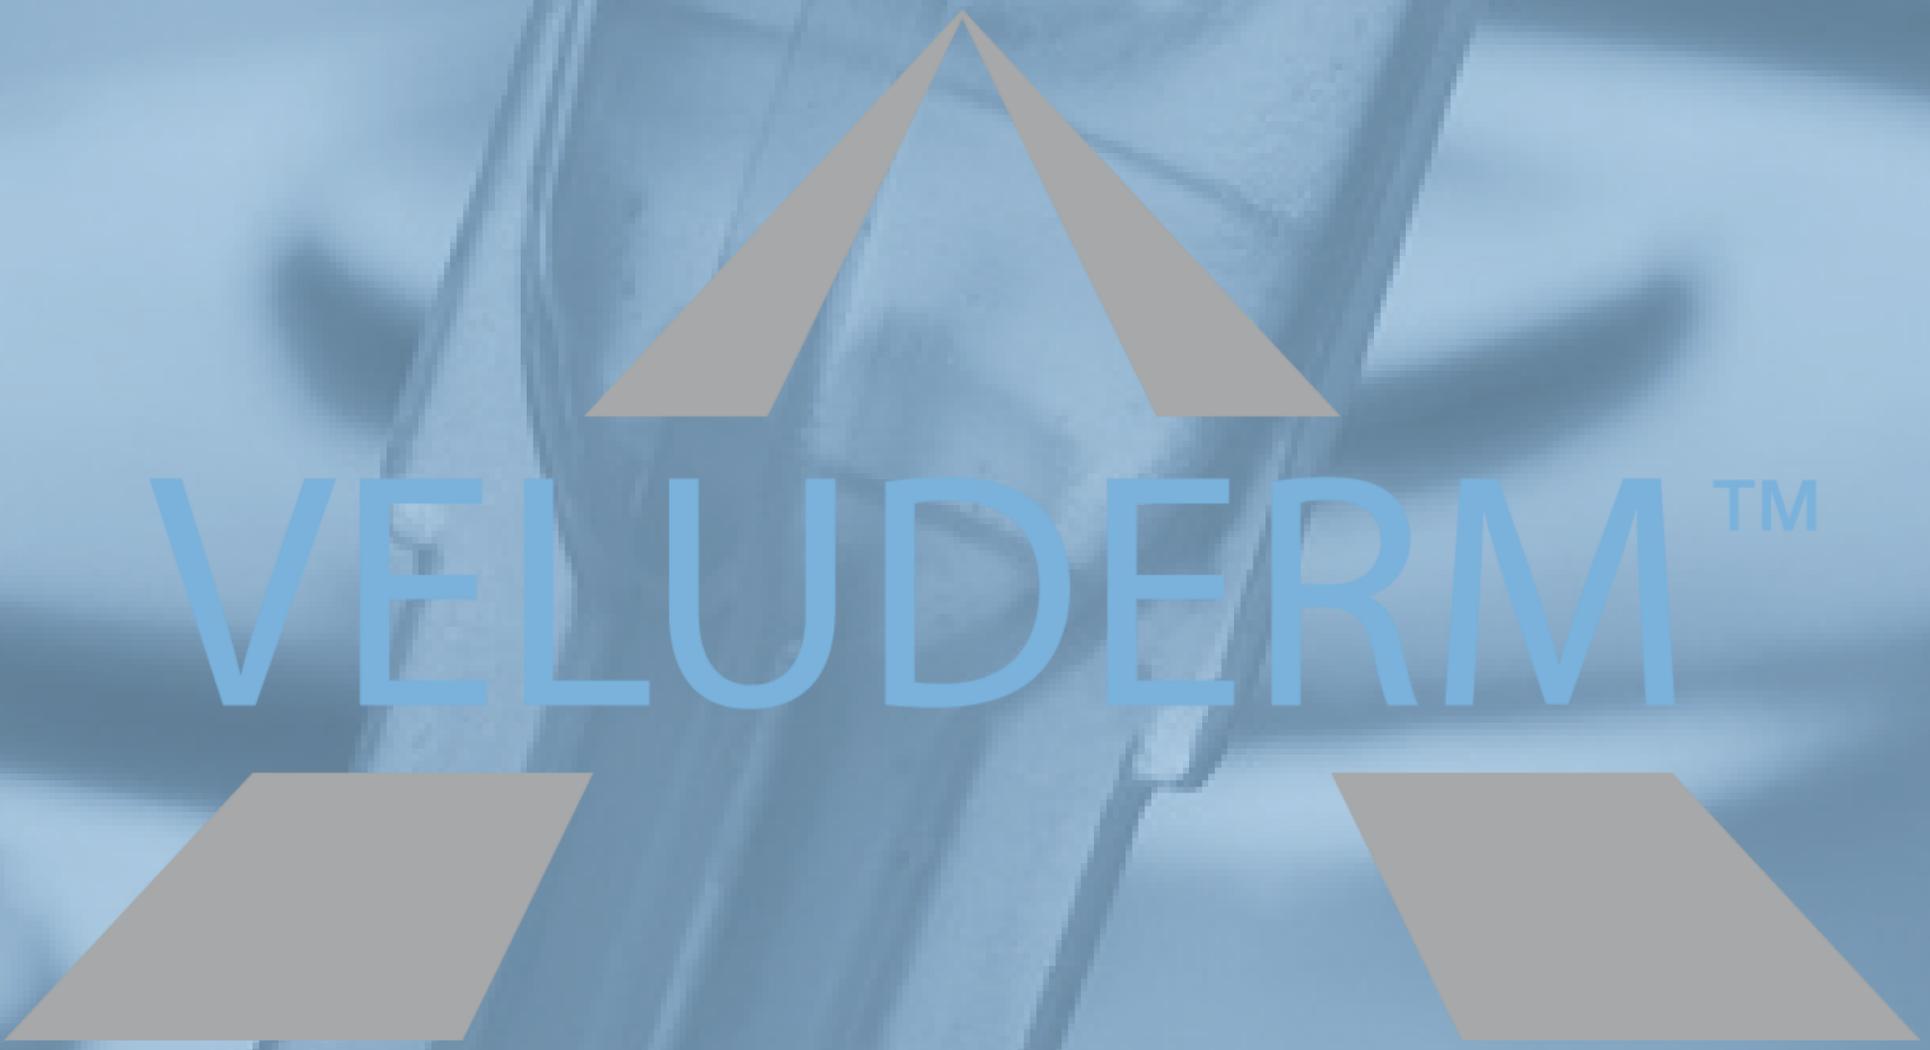

Using the transdermal therapy technique chosen by the professional, apply 5-15 ml of the solution. Treat with one session every 7 days for 5-8 sessions, Repeat as required and follow with maintenance.

Areas of application

Abdomen, buttocks, thighs.
