

FACELIFT SYSTEM 10

Bio Revitalization & Firming Solution

IMMEDIATE + PROGRESSIVE SKIN REVITALIZATION

5 x 5 ml

What is it? FACELIFT SYSTEM 10

Skin ages due to both intrinsic changes and external, environmental factors. Over time, they lead to a loss of skin density, firmness and vitality.

FACELIFT SYSTEM 10 combats aged skin with facial rejuvenation, firming and revitalization.

A professional use, sterile, cosmeceutical solution.

Benefits

- Fine line & wrinkle reduction
- Immediate and progressive skin tightening
- Intensive hydration
- Lifting and revitalization of the dermis
- Increased volume and elasticity

Active Ingredients

Hyaluronic Acid CUBE 3® , Dimethylaminoethanol Tartrate (DMAE), Organic Silanol, Acetyl Octapeptide-3, Pentapeptide 18, Organic Silanol, Niacinamide (B3), Thiamine HCl (B1).

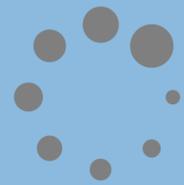

Hyaluronic Acid CUBE 3® is a glycosaminoglycan which helps to quickly restore skin integrity.

Cube 3® is blended with **DMAE 3%**, which has a soothing effect and helps increase skin firmness, with improvement in underlying facial muscle tone.

Two pentapeptides are included that work synergistically to target fine lines and wrinkles exasperated by facial expression/muscle contraction. **Acetyl Octapeptide-3** and **Pentapeptide-18**.

Organic Silanol stimulates fibroblast production and enhances bio-synthesis of collagen, elastin and proteoglycans.

Niacinamide (vitamin B3), Thiamine HCl (vitamin B1) have skin firming effects, protecting and balancing with anti-oxidant actions, enhancing aerobic metabolism, cell growth, and acetylcholine synthesis.

Transdermal Therapy

Designed to penetrate the skin with different methods of application.

- Topical application with simple rubbing.
- Topical application during massage.
- Virtual mesotherapy, E.g. iontophoresis, electroporation, ultrasound, etc.
- Collagen Induction Therapy (CIT) E.g. Skin needling, Dermapen, etc.

Protocol

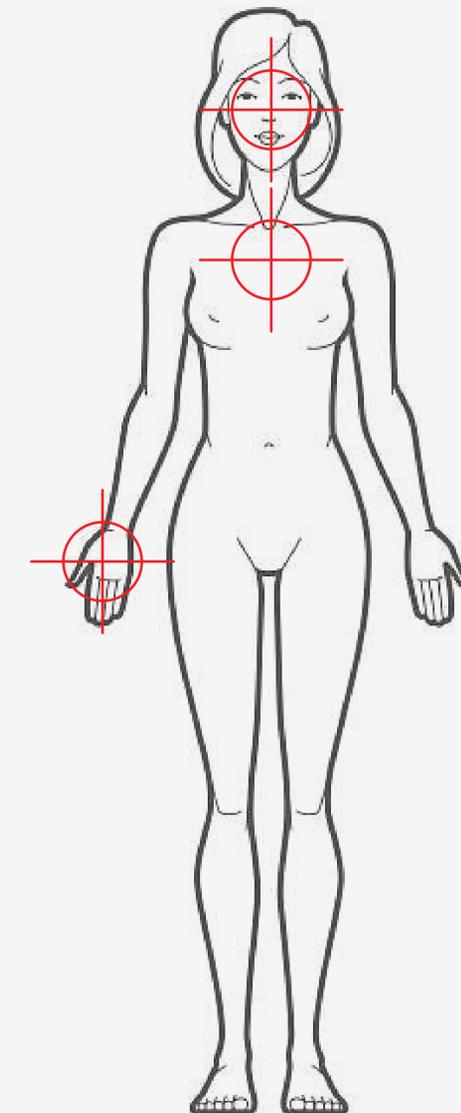

FACELIFT SYSTEM 10 is the perfect choice for youthful skin which is starting to show signs of tired or flaccid skin with signs of aging, developing fine lines and wrinkles.

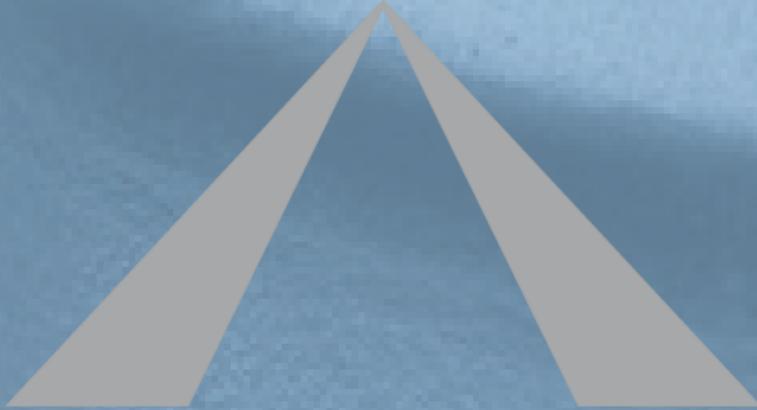

Using the transdermal therapy technique chosen by the professional, apply 3-5ml of the solution. Treat with one session per week for 5-8 sessions. Repeat as required and follow with maintenance.

Areas of application

Face, decollete, hands.
