

HYALURONIC ACID 3%

CUBE 3® Firming Solution

FACIAL REJUVENATION + SKIN FIRMING

5 x 5 ml

What is it? HYALURONIC ACID 3%

HYALURONIC ACID 3% is a professional use, sterile, cosmeceutical solution, for facial rejuvenation and skin firming.

Ideal for aging, tired skin that has lost volume with fine lines and wrinkles.

Benefits

- Moisture retention
- Increasing viscosity and reducing permeability of extracellular fluid
- Enhancing mechanical resilience
- Enhanced tissue repair
- Soothes skin
- Helps to increase skin firmness and elasticity, improving the fibres that hold tissues, and reducing the appearance of fine lines and wrinkles, promoting younger-looking skin.

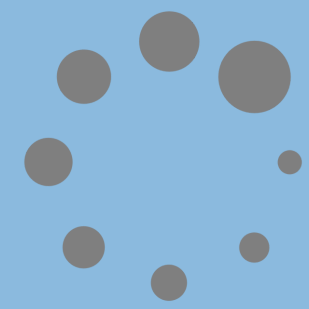

Active Ingredients

This vial contains 150mg of Hyaluronic Acid Cube 3®.

Cube 3®, a biotechnological ingredient with enhanced efficacy compared to regular hyaluronans, in:

- Penetration
- Wrinkle reduction
- Transepidermal water-loss
- Skin softening
- Hydration

Cube 3® does not focus on a specific molecular weight but rather on the efficacy of a range of fractions that work in synergy, just as naturally found in the body.

Transdermal Therapy

Designed to penetrate the skin with different methods of application. Sold in a 5 ml sterile vial.

- Topical application with simple rubbing.
- Topical application during massage.
- Virtual mesotherapy, E.g. iontophoresis, electroporation, ultrasound, etc.
- Collagen Induction Therapy (CIT) E.g. Skin needling, Dermapen, etc.

Protocol

Using the transdermal therapy technique chosen by the professional, apply 3-5ml of the solution.

Treat with one session, every 7 days, for 10 sessions, depending on the progress of results.

Repeat as required to achieve treatment objectives and then maintenance treatments every 3-6 months.

Areas of application

Face, decollage and hands.
